

STREET COMMITTEE 2009 REPORT, FEB. 16, 2010

2009 Committee Members;

John Tevis (Lot 48), Garret Kuipers (Lot 241), Pete Peterson (Lot 377), Lee Schmitt (Lot 503), Bruce Smith (Lot 562), Ed Hedges (Lot 24), Bob DeCorte (Lot 481), Eldon Inabet (Lot 481) and Leroy Gibson (Lot 820).

Board Liaison Jim Brannon

During many discussions about existing street conditions and carry-over projects from previous seasons we were able to develop a 2009 project for the 2009 Board of Directors.

The 2009 PROJECT would have rebuilt all of the streets and parking areas around the "Central" complex that were identified as "most" in need of repair.

After presentation to the Board the 2009 Project was modified to fit within the resources available. The Project as approved by the Board rebuilt East Mineshaft, a portion of Ginnebar, Mother lode and rebuilt West Mineshaft and adjacent parking with seal coating and crack sealing other areas within the Resort for approximately \$95,000⁰⁰.

SWAINE ASPHALT was our contractor and we feel they produced an excellent project that will provide years of service for Golden Vista. The Committee thanks Dell McKinney our "Project Manager" and her staff for their contributions in the successful completion and great finished product.

We would also like to acknowledge the efforts of Eldon Inabet for his participation in the activities of the Street Committee since 2002, he re-retired and has returned to their home in Montana.

As this report is being prepared we are working on PROJECT 2010 for presentation to the 2010 Board of Directors.

Respectfully submitted by the 2009 Street Committee,
Leroy Gibson, CHAIRMAN
